<p>DY43 is the first Prestige Stamp Book to include Machin definitives extended with a 2D-barcode. The iconic Machin design has been retained in the new design and the colour scheme has been reversed to depict the effigy in colour against a white background. The barcode is printed in a matching colour alongside, separated by a simulated perforation line. The stamps are printed by Cartor Security Printers in gravure on self-adhesive paper. The new size of the stamps is 39 mm x 30 mm, elliptical perforations 15x14½, U-shaped slits. The PSBs are a slightly larger size to accommodate the barcoded pane – it will be 4 mm bigger in height (96 mm increased to 100 mm).</p>
